Internship:

- Inmovidu Technologies and zebo.ai
  Worked as a **Data Science Intern** on a project of training a neural network for classifying mineral or rock on the basis of the given data, also on speech to text using gtts.
- TCS Remote Intern
  Worked as a remote intern for TCS on a project of Robotic Process Automation

Education Qualification:

Qualification	Institution	University	Year of Passing	Percentage / CGPA
B.Tech.	G.V.P. College of Engineering(A)	J.N.T.U.	2021	8.71/10.00
Intermediate	Sri Chaitanya Junior College	B.I.E.A.P.	2017	96.00%
10th Class	Bhashyam High School	S.S.C.	2015	9.50/10.00

Technical Skills:

- Programming Languages: C, C++, Java, Python

- Tools: GIT

- Frontend Technologies: HTML, CSS, JavaScript

- Digital Technologies: Machine Learning, Data Science

- Database: Mysql

Projects:
- **Face Mask Detection**
  Worked on a Face Mask Detection model to run on small devices with less computation power in a live video stream trained using OpenCV, Keras, Tensorflow using Mobilenetv2 architecture
- **Sales Prediction**
  A Machine Learning model for Predicting the Sales of a company depending upon the revenue spent on different advertising media. It is a linear regression model.
- **Emotion Classification**
  A emotion classifier is a neural network which classifies the 3 types of emotions of person when given his face. Technologies used are tensorflow, opencv, keras.
